For the application of *ad valorem* duties, exporters of products originating in France, Algeria, the French Colonies and Possessions, and the territories of the Protectorate of Indo-China, and reciprocally exporters of Canadian products, may produce certificates of value issued by any Chamber of Commerce or by any other similar commercial organization. Such certificates shall be taken into consideration by the respective Customs officials, in levying the duties to which the imported products may be liable, without however restricting their rights of appraisement.

MEMORANDUM of Proposals on Behalf of Canada for a New Treaty Between the French Republic and His Majesty, King Edward VII., as Respects Commercial Relations Between France and Canada.

CONCESSIONS OFFERED BY CANADA TO FRANCE.

I. The reduced rates of duty on certain articles of French origin provided by Article 1 of the Treaty of the 6th of February, 1893, shall be continued.

II. In addition thereto Canada shall grant the benefit of her Intermediate Tariff rates, on the terms and conditions hereinafter set forth, upon all articles of French origin not included in the said Article I of the Treaty of 1893.

CONCESSIONS ASKED BY CANADA FROM FRANCE.

III. The reduced rates of duty on certain articles of Canadian origin provided by Article III of the Treaty of the 6th of February, 1893, shall be continued.

IV. In addition thereto Canada asks that the benefit of the French Minimum Tariff shall be given on all articles of Canadian origin not included in the said Article III of the Treaty of 1893.

GENERAL PROVISIONS.

V. The Treaty of 1893 to be terminated and a new Treaty to be substituted.

VI. The Treaty shall be for a period of ten years. After the termination of ten years the Treaty shall continue to be in force but may be terminated by either party after six months notice.

VII. The reduction of duties on Canadian articles imported into France shall apply only to direct imports and the reduction of duties on articles imported into Canada from France shall apply only when the articles are imported direct from France or by way of Great Britain and landed at a Canadian port.

VIII. If in the case of any article which when imported into France is now subject to the duty of the General Tariff, there being no Minimum Tariff rate, France shall hereafter place such article on the Minimum Tariff list, then such article when imported direct from Canada into France shall receive the benefit of the Minimum rate so established.

IX. If in the case of any article which when imported into Canada is now subject to the duty of the General Tariff, the General and Intermediate Tariff rates being the same, Canada shall hereafter adopt a reduced rate in the Intermediate Tariff, then such article when imported into Canada from France shall receive the benefit of the reduced rate so established.

XI. If Canada shall at any time while the Treaty remains in operation grant any Tariff concession to any country not under the British flag, the benefit of such concession shall be extended fully to France.

XII. It is mutually agreed that while the Treaty remains in operation the rates of duty, both as respects imports into France from Canada and imports into Canada from France, shall not be greater than the existing rates.

XIII. The concessions granted by France to Canada shall include similar concessions to Canadian articles imported into Algeria, Tunis and the French Colonies.

XIV. The concessions granted by Canada to France shall include similar concessions to articles imported from Algeria, Tunis and the French Colonies.

NOTE IN REPLY TO THE MEMORANDUM FORWARDED OFFICIALLY BY THE CANADIAN DELEGATES ON JULY 25, 1907.

The two principal clauses of the memorandum forwarded by the Canadian delegates are:—

1. The exchange of the Canadian intermediate tariff for the French minimum tariff;

2. The guarantee during the whole term of the treaty of the present minimum and intermediate tariff rates.

With great regret the French Government are unable to agree to these two propositions : to the first, because the law of the 11th January, 1892, section 1, subsection 2, authorizes the granting of the minimum tariff only to countries granting to French products their lowest tariff rates, and the Canadian intermediate tariff cannot be recognized as of this character ; to the second, because it is a principle in French customs legislation that the administration cannot renounce its right to revise or modify the tariff. If some exceptions to this rule have been made, they have been the result of special circumstances and for a very brief period. The French delegates, however, are of opinion that the convention of the 6th February, 1893, without changing its principles, would furnish the best basis for negotiations. It would be sufficient to extend its scope.

ELYSÉE PALACE HOTEL,
PARIS, August 22, 1907.

SIR,—Referring to the interview with which you were good enough to favour me in London a few days ago, in connection with the commercial negotiations between the representatives of the French and Canadian governments, I have the honour to inform you that, although definite conclusions have not been reached respecting any of the questions under discussion, such progress has taken place in the negotiations as leads us to believe that within a few days we shall be able to submit for your approval a draft of a treaty which will be acceptable to the French government.In anticipation of this satisfactory result, my colleague, Mr. Brodeur, and myself request the good offices of your department in facilitating formal steps for the completion of the treaty as soon as possible after the draft has received your approval.

We presume that after a protracted and laborious session, you may be absent from London at the time when we shall be prepared to bring the matter before you. May we venture to hope that if you are likely to be away, the proper officers of your department may be instructed to receive us and to assist in advancing the business with all reasonable speed ? Perhaps it would be convenient to arrange at once for the preparation of the necessary authority to the ambassador and the Canadian ministers for the signing of the treaty.

I have the honour to be,
Your most obedient and humble servant,
(Signed) W. S. FIELDING.

The Right Hon.
SIR EDWARD GREY, Bt.,
Secretary of State for Foreign Affairs, London.

ELYSÉE PALACE HOTEL,
PARIS, August 24, 1907.

DEAR SIR,—Under arrangements made some time ago between Sir Edward Grey and Sir Wilfrid Laurier, my colleague Mr. Brodeur and I, with the co-operation of the British Ambassador, Sir Francis Bertie, have been conducting negotiations with the representatives of the French Government with the view of enlarging the scope of the present treaty respecting the trade relations between France and Canada. While the negotiations have not yet been completed, they have advanced far enough to lead us to believe that within a few days we shall be able to prepare a draft treaty which will be acceptable to the French Government and which, subject to the approval of the Imperial Government, the Canadian Government will be willing to adopt. We shall at once submit the draft to the Foreign and Colonial Offices and shall desire their co-operation for the purpose of facilitating the formal closing of the negotiations and the completion of a treaty which, in accordance with the arrangement between Sir Edward and Sir Wilfrid, will be signed by the British Ambassador and the two Canadian ministers.

I anticipate that after a protracted and laborious session of parliament, the Foreign and Colonial Secretaries will leave London at an early day. I hope that their absence will not necessitate any delay in whatever action may be required for the completion of the proposed agreement.

I shall esteem it a favour if you will inform Lord Elgin of the state of the matter and ask him to oblige us by giving whatever instructions may be necessary, in his department, to enable the proper officers to take up the matter, if we are in a position to place it before them.

I have informed Sir Edward Grey of the situation and have solicited his co-operation for the same purpose.

Yours faithfully,

(Signed) W. S. FIELDING.

Sir Francis Hopwood,
Colonial Office,
London.

Colonial Office, August 27, 1907.

Dear Mr. Fielding,—I am myself going away on leave to-morrow but before I depart, I will speak to Lord Elgin as you desire, and see that arrangements are made to prevent unnecessary delays in dealing with the draft Treaty.

I am very glad your negotiations have been so successful ; please accept my congratulations.

Yours sincerely,

(Signed) FRANCIS J. S. HOPWOOD.

Foreign Office, August 28, 1907.

Sir,—I was gratified to learn from your letter of the 22nd instant that progress has been made with the commercial negotiations between the representatives of the French and Canadian governments. On receipt of the Draft Treaty which you hope to be able shortly to submit to me I will at once refer it to the Colonial Office. It must also be shown to the Board of Trade.

There will be no delay on the part of this department, and I will request the Secretary of State for the colonies and the President of the Board of Trade to expedite the matter as much as possible.

As soon as their approval is received, your full powers will be sent to you.

I am, sir,

Your most obedient humble servant,

(Signed) E. GREY.

Your Excellency,—At the close of the recent conference between the representatives of the French and Canadian governments on the subject of a proposed commercial treaty between the two countries, the following question was asked by the French delegates:—

"Do the words 'silk fabrics' of articles 581 cover tissues of pure silk and those of which silk is the component part of chief value?"

We replied that such was the interpretation which we gave to the item, but that before giving a definite reply we were desirous of communicating with the Customs authorities at Ottawa. It was agreed that we should send you the definite reply.

In accordance with this understanding, we have the honour to inform you that we are in a position to reply in the affirmative to the question which was put to us.

We have the honour to be,
Your obedient servant,

153.

The service, as at present run, is under terms of a contract entered into with Messers. H. & A. Allan, as representing the Allan Line Steamship Company, Limited, bearing date of January 19, 1906, and which expires on May 1, 1912. The principal provisions *inter alia* are as follows:—

1. 'The contractors owning or controlling in their capacity aforesaid the steamers *Virginian* and *Victorian*, each of guaranteed seventeen knots effective speed, and other steamers which may be approved by the minister, and being about to contract for the construction of two other steamers of guaranteed eighteen knots effective speed, to be delivered and ready to commence running on the service hereinafter described on or before the first day of August, 1907, will, on the first day of August, 1906, commence to perform and thereafter will carry on the service hereinafter described, that is to say, a regular weekly steamship service between Canada and Great Britain until the first day of May, 1912, unless sooner terminated under the provisions of section 28 hereof.

2. 'Until the said eighteen knot steamers are ready to commence running, the service shall be performed by the steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian*, and such other steamers as may be necessary for the effectual running of the service, and as may be approved by the minister.

3. 'The contractors agree to build and place in the service by August 1, 1907, two steamers guaranteed to develop twenty knots on their trial trips on the measured mile, and of guaranteed eighteen knots effective speed.

4. 'The steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian*, and such other steamers as may be approved by the minister shall, until the two eighteen knot steamers have been placed in the service, perform ten complete round voyages per annum each, and after the two eighteen knot steamers have been placed in the service, they and the *Victorian* and the *Virginian* shall each perform ten complete round voyages per annum.

5. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors, their successors or assigns, well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns, a subsidy as follows:

(*a*.) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of eighteen knots per hour, £2,500 pounds sterling.

(*b*.) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of eighteen knots per hour, £3,000 pounds sterling.

(*c.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of seventeen knots per hour, £2,000 pounds sterling.

(*d.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of seventeen knots per hour, £2,500 pounds sterling.

(*e*) For each complete round voyage performed at the rate of fifteen knots per hour, £1,000 pounds sterling.

'Such subsidy being payable at the end of each quarter for all voyages fully run and completed during each quarter, that is, at the close of the months of September, December, March and June, during the continuance of this contract; provided, however, that no amount or instalment of subsidy shall be payable or paid at any time unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to dates of sailing, speed and duration of voyages, have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; and it is a further condition of this contract that the contractors shall, on the completion of each voyage, furnish the minister with such certified extracts from the steamer's log, together with track charts of the voyage, or any other information required, as will enable him to determine whether the service on such voyage has been within the requirements of this contract.

(*a*) 'Provided always, that at no time during the continuance of this contract, except for thirty days between any fifteenth day of December and the following fifteenth day of February, shall more than two vessels of the seventeen and eighteen knot class be withdrawn at the same time from the service hereinbefore described.

6. 'It is further understood and agreed that the service to be performed during the season of closed navigation on the St. Lawrence shall be as follows:—

'Between the port of Liverpool and the ports of Halifax and St. John, one of the said steamers sailing on each westbound trip from Liverpool each Thursday, or on such other day as may be approved by the minister, for Halifax and St. John, and calling at Moville for the embarkation of the mails, if the call at that port be adhered to, and at Halifax for the landing of such mails; and one of the said steamers sailing on each eastbound trip from St. John each Saturday, or on such other day as may be approved by the minister, for Liverpool, calling at Halifax for the embarkation of the mails, and at Moville for the landing of such mails, if the call at that port be adhered to; it being understood and agreed that if from any cause it should prove impossible for the steamers performing the service to secure sufficient cargo at St. John during the winter season, or if at any season there is inadequate accommodation in the harbour at St. John for any of the said steamers, the minister may, in his discretion, relieve the contractors from the obligation of proceeding to or starting from that port on any particular voyage or voyages.

7. 'It is further understood and agreed that the service to be performed during the season of open navigation on the River St. Lawrence shall be as follows:—

(*a*) 'On all voyages from Montreal and Quebec eastward to Liverpool the steamers shall be at liberty to proceed by way of the Straits of Belle Isle, and upon all such voyages the port of call below Quebec shall be Rimouski for the embarkation of the mails and at Moville (if the Moville call be adhered to) for the landing of the mails.

(*b*) 'On all voyages westward from Liverpool the steamers shall call at Moville for the embarkation of the mails (if the Moville call be adhered to) and shall be at liberty to proceed by way of the Straits of Belle Isle, and on all such voyages the port of call below Quebec shall be Rimouski for the landing of the said mails.

(*c*) 'On all voyages eastward or westward from or to Montreal and Quebec via Cape Race the port of North Sydney may, at the option of the minister, be substituted for the port of Rimouski for the embarkation or landing of the said mails.

8. 'It is understood and agreed that at Rimouski and North Sydney the mails are to be delivered to and received from tenders supplied by the postal authorities of Canada.

9. 'For the purposes of this contract the following shall be understood to be the distances between the points hereinafter mentioned i.e., between Moville and Rimouski via Belle Isle, 2,300 miles, and between Moville and Rimouski via Cape Race, 2,500 miles, except when it may become necessary for steamers to deviate to the southward to avoid ice, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,800 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Halifax and Moville, 2,255 miles, except when it may become necessary for steamers to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,550 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Moville and Sydney, 2,105 miles, except when it may become necessary to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,405 miles, shall for the purposes of this contract be taken to be the distance aforesaid.

10. 'It is understood and agreed that each steamer while run under this contract shall be fitted with adequate cold storage accommodation to the satisfaction of the minister.

11. The contractors bind themselves to run each of the three classes of steamers hereinbefore referred to at the average rate of speed for each voyage as specified in clause 5, in performing the several voyages from port to port, unless in the opinion of the captain of said steamer the said rate of speed would endanger life or the safety of the ship, or unless the speed of the ship is delayed by reason of fog, ice, snow or stress of weather, or by assisting ships in distress, in any of which events the contractors shall submit to the minister the captain's explanation of the cause of the delay, and such other evidence as the minister may require to enable him to determine, and the minister upon such explanation and evidence shall determine whether the circumstances were such as justified the captain's reduction of the speed of the voyage or sufficiently explain the delay in completing the voyage, and in all cases where such failure to maintain the said average rate of speed is deemed justifiable or sufficiently explained the minister may, in his discretion, omit the voyage in question in calculating the average for the quarter in which such voyage took place, or may deduct the period of such delay in calculating such average.

12. 'If during any quarter the mails carried by the steamers *Victorian* and *Virginian* and the two eighteen-knot steamers are not conveyed from port to port at the average rate of the speeds specified in clause 5 for the said four steamers after omitting voyages and deducting delays as provided in the last preceding clause, or if during any quarter the mails carried by the fifteen-knot steamers required for the carrying out of this contract are not conveyed from port to port at the average rate of the speed specified in clause 5 for the said fifteen-knot steamers, after omitting voyages and deducting delays as provided in the last preceding clause, then, and so often as the same shall happen, the contractors shall furnish to the minister the certified logs of the captains of the steamers showing the causes of the delays, and there shall be deducted from the subsidy payable to the contractors for the said quarter a sum equal to five per cent of such subsidy for every one-quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of this contract.

'Provided, however, that for the period between any fifteenth day of December and the following fifteenth day of February when steamers of different classes are employed in the service, the average rate of speed shall be arrived at by taking the average of the speeds of all the steamers employed in the service during the said period.

'Provided further, that the total amount of the sum deducted in respect of such default or failure of either of the two classes of steamers mentioned in this clause shall not exceed the full amount of the subsidy allowed the said class for the quarter or period in question.

13. 'Subject to the provisions of clause 11 hereof, the other steamers required for the carrying out of this contract, and which may from time to time be approved by the minister as provided in clause 2 hereof, shall when in service be entitled to receive a subsidy which will bear the same proportion to the sum of £1,000 as the actual speed made by the said steamers will bear to the speed of fifteen knots per hour.

14. 'It is further understood and agreed that the tolls to be charged in the way of either freight or passenger rates between ports on both east and westbound trips shall always under substantially similar circumstances and conditions, be charged equally to all persons, and at the same rate, whether by weight or otherwise, in respect of all traffic of the same description and receiving in carriage the like accommodation; and further, that no toll shall be charged which discriminates against Canadian merchants or shippers or against emigrants to Canada.

15. 'If the contractors comply with the terms of this contract then at the expiration hereof His Majesty will enter into a new agreement with the said contractors for a further period of five years for payment to the contractors of such subsidy as His Majesty may then be prepared to pay to any one, provided the contractors by such new agreement will then undertake to perform such service as His Majesty may then require during the said new five year term, in such manner and upon such conditions as His Majesty may then prescribe.

Section 28 referred to in section 1, reads as follows:—

28. 'It is declared to be the true intent and meaning of these presents that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.'

'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns a subsidy at the rate of twenty thousand dollars ($20,000) payable as follows:—

One half, or ten thousand dollars ($10,000) on the first day of October next following the date of these presents, and the balance, ten thousand dollars ($10,000) on the completion of the service on the first day of April, 1908.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the Minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract, furnish to the Minister time-tables showing the proposed sailings, and upon the same being approved by the Minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the Minister, does not sail from a terminal port as herein specified within three days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the Minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so: It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for, nor payment of, any subsidy in respect of any voyage not actually performed.

4. 'The contractors shall at least three weeks prior to the first sailing under this contract furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and westbound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly against Canadian merchants or shippers who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on east-bound trips, sailing from Halifax as hereinbefore provided, on through bills of lading, to Liverpool from any place in the Provinces of Ontario and Quebec or from any Canadian points farther west, shall in no case be greater than from the same place to Liverpool via any United States route or port; and on west-bound trips the rates from Liverpool to any place in Ontario or Quebec or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of Halifax and Liverpool aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

6. 'The contractors shall, during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. 3. 'The steamers while so employed shall not carry in any hold, or between any decks more than five tiers of barrels of apples or other fruit except they be stowed in such manner and with such dunnage as will relieve any tier from the weight of more than four other tiers.

4. 'The handling, loading, stowing and unloading of any fruit carried by said vessel shall be subject to and under the supervision of any officer appointed for that purpose should the minister deem it desirable.

5. 'The steamers when carrying fruit shall be run at an average speed of not less than twelve knots per hour.

6. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns, a subsidy of twenty-five thousand dollars ($25,000), payable as follows:—

'The sum of twelve thousand five hundred dollars ($12,500) on the first day of October next after the date of these presents; and the balance of twelve thousand five hundred dollars ($12,500) on the completion of the service on the first day of April, 1908.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within forty-eight hours of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so: It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

8. 'The contractors shall, at least three weeks prior to the first sailing under this contract, furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly, against Canadian merchants or shippers, who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on east-bound trips, sailing from St. John or Halifax, as hereinbefore provided, on through bills of lading to London from any place in the provinces of Ontario and Quebec, or from any Canadian points farther west, shall in no case be greater than from the same place to London via any United States route or port; and on west-bound trips the rates from London to any place in Ontario or Quebec, or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of St. John or Halifax and London aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

10. 'The contractors shall, during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. 12. 'The steamers employed in carrying out the provisions of this contract shall not on any of their voyages either outwards or homewards call at any port in the United States of America.

16. 'An extra cargo steamer, or extra cargo steamers, to meet the requirements of the trade shall be provided by and at the cost of the contractors during the crop time in the West Indies, if sufficient cargo is afforded, to run from the West Indian Islands served under this contract, and also from the Island of Nevis to Halifax.

17. 'It is understood that if either of the said steamers shall be, by peril of the sea or other unavoidable casualty, lost, destroyed or temporarily disabled from performing the voyages herein agreed to be performed according to the true intent and meaning of these presents, the contractors may in such case, as soon as reasonably may be having regard to the circumstances, replace the said steamer by another of equal class, speed, equipment, character and capacity to the satisfaction and approval of the minister, in case the said steamer has been only temporarily disabled, and continue the service herein contracted for with such substituted or repaired steamer with as little delay as possible under all circumstances; provided, however, that there shall be no payment of any subsidy in respect of any voyage not actually performed.

19. 'If and so often as the contractors shall fail to commence any of the said voyages on the day on which the same ought to be commenced, according to this contract and the said time-table, or shall fail to complete any such voyage within the period within which the same ought, according to this contract and the said time-table, to be completed, then (except in any case in which the contractors shall prove to the satisfaction of the minister that such failure has arisen from any cause wholly beyond the control of the contractors), the contractors shall pay to the minister in respect of every such failure a sum equal to one thirtieth part of the subsidy payable

under this contract; and if any such failure shall occur thrice in any period of two calendar months, then (except as aforesaid), the minister may, by giving notice in writing to the contractors, determine this contract, but without prejudice to the rights of either party in respect of any antecedent breach thereof. This service is in one sense run under the terms of the Act of Confederation, which provided that a steam service should be maintained between Victoria and San Francisco, which, at that time, was the only mode of travel or of transportation of mails; but for some years past the necessity for the service as a mail route has ceased to exist, as letter mails are invariably carried by rail, and it is only small quantities of newspapers and similar matter that is carried by the steamers.

The service at present is run by the Pacific Coast Steamship Company of San Francisco, represented by Messrs. R. P. or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. 6. 'No preference, priority or advantage whatsoever shall be granted by the contractors as regards the shipment and conveyance of any goods or products directly or indirectly against shippers of Canadian goods and products, who shall always have precedence for such Canadian goods and products over all other shippers, provided that such shippers in respect of such Canadian goods and products shall give not less than ten day's notice in writing to the contractors at their office at the port of shipment, specifying the nature and amount of such goods and products before the date advertised for the departure of any steamer of their intention to ship goods and products, and who shall at the same time, if required by the contractors, pay a deposit of not less than ten per cent upon the freight chargeable in respect of the carriage of such goods and products, and subject thereto the contractors shall ship all such goods and products in order of priority according to the time at which the same shall be actually received by the contractors for shipment.

9. 'All goods and products shall be carried at fair and reasonable rates, and the minister may call upon the contractors to furnish to him a schedule of the maximum freight rates proposed to be charged between different ports, which schedule shall be subject to the approval of the minister, and after being so approved shall not be raised except with his consent.

Every such statement shall be in such form and contain such particulars and be vouched in such manner as the minister may from time to time require, and may be used for such purposes as the minister may deem expedient.

12. 'The contractors at all times during the said term shall keep and maintain each of the steamers in good and efficient working order and repair and in a proper and seaworthy condition, and shall provide and maintain for each of the steamers proper and efficient officers and crews to the satisfaction of the minister. The minister may from time to time during the continuance of this contract cause any steamer employed or intended to be employed under this contract to be inspected, either as regards her machinery, hull, fittings or otherwise, and the contractors shall make good to the satisfaction of the minister any defects in any of the steamers which he may require to be made good. The contractors shall also, with all practical despatch, provide and substitute another suitable steamer in the place of any steamer which the minister may require the contractors to cease to employ on the service on the ground that she has, in the opinion of the minister, become unfitted for such employment and cannot be properly repaired so as to become fit therefor. If and so often as the contractors shall fail within a reasonable time to duly comply with any requirement made under this clause, then and in any such case the minister, in addition and without prejudice to his other rights and remedies hereunder, may withhold the payment of the subsidy hereinafter mentioned until the contractors shall have fully complied with such requirement.

13. 'If and so often as the contractors shall fail to commence any of the said voyages on the day on which the same ought to be commenced according to this contract and the said time-table, or shall fail to complete any such voyage within the period within which the same ought, according to this contract and the said time-table, to be completed, then (except in any case in which the contractors shall prove to the satisfaction of the minister that such failure has arisen from any cause wholly beyond the control of the contractors) the contractors shall pay to the minister a sum of fifty pounds for each period of twenty-four hours or fraction of twenty-four hours during which such default shall continue; and if any such failure shall occur in respect of any three consecutive voyages, then (except as aforesaid) the minister may, by giving notice in writing to the contractors, determine this contract, but without prejudice to the rights of any party in respect of any antecedent breach thereof. The times of the commencement and completion of each of the said voyages shall be ascertained and finally settled by an officer from time to time appointed by the minister for that pur-

pose. All moneys which shall become payable under this clause shall be paid as liquidated damages, and not by way of penalties, and may be deducted from the subsidy or may be recovered from the contractors by the minister.

14. 'If at any time the contractors shall commit any breach of the provisions of this contract or any of them, then (except in any case in which the contractors shall prove to the satisfaction of the minister that such breach has arisen from any cause wholly beyond the control of the contractors) the minister may, by giving notice in writing to the contractors, determine this contract, but without prejudice to the rights of any party in respect of any antecedent breach thereof.

15. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns, an annual subsidy of the sum of one hundred and forty-six thousand dollars ($146,000) from and out of the proper moneys of the Dominion of Canada, the same to be paid and payable in the city of Ottawa in four quarterly payments payable in the months of January, April, July and October in each and every year during the continuance of this agreement, and subject always to such subsidy being voted by the Parliament of the Dominion of Canada.

16. 'The contractors shall not in respect of the services receive or accept any subsidy or aid pecuniary or otherwise from any colony or foreign country or any provincial, civic or municipal authority or any person or persons or corporation or corporations, and should any such subsidy or aid be received by the contractors, the Dominion government may deduct the amount thereof from the amount of the next quarterly payment due and owing under this contract, and so from time to time and as often as the contractors receive such subsidy or aid from any colonial or foreign government, provincial, civic or municipal authority or any person or persons or corporation or corporations; but this provision is not to be deemed as a permission or authority for the contractors receiving any such subsidy or aid.

17. 'The contractors shall not assign, underlet or dispose of the benefit of this contract or any part thereof without the previous consent in writing of the minister. Every assignee or under-lessee of the benefit of this contract or any part thereof, shall enter into an agreement with the minister in such form and containing such provisions as he may require for the purpose of rendering such assignee or underlessee liable in respect of the obligations hereby imposed on the contractors.

1. 'The contractor being the owner of or having control of the steamship *Africander* of 2,742 tons gross register, and other steamers, will therewith within three months from the date hereof or with steamships of like class, rating, and of not less capacity, approved by the minister, establish a regular service between the port of

Vancouver, in the province of British Columbia, and the ports of Auckland, Wellington, Littleton, Dunedin and Bluff, in the colony of New Zealand, such service to commence by one of the said steamers sailing from one of the said ports in New Zealand for Vancouver within three months from the date of the signing of the New Zealand agreement, to be followed by the other two months later, the first one sailing on the return from Vancouver within two months next following the date of the first sailing from New Zealand to be followed by the other two months later, and to so continue sailing from both terminal ports at intervals of two months during the continuance of this contract, with the option on the part of the contractor of calling on all or any trips at Fiji, and with the further option of also calling at the port of Victoria, in British Columbia, on any or all trips run.

3. 'It is understood and agreed that should the traffic over the route named so increase as to warrant the putting on of larger steamers or of sailing the steamers more frequently than hereinbefore provided, the contractor is to furnish and run such steamers or such more frequent service, always subject to the approval of the minister as to sailing dates and conditions, without, however, any additional subsidy being payable than that hereinafter provided.

4. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractor, his successors and assigns, that the contractor and his successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractor set forth and contained, he will well and truly pay or cause to be paid to the contractor, his successors or assigns a subsidy at the rate of ten thousand pounds sterling (£10,000) per annum, payable in five instalments of one thousand and six hundred pounds (£1,600)) each, on the completion of each of five full round voyages; and the balance of two thousand pounds (£2,000) on the completion of a year's service as herein contracted for; and in like manner and like instalments during each year's continuance of this contract;

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractor shall at least two weeks prior to the first sailing under this contract, furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within six days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so; it being understood and agreed that, in the event of any of the

said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractor to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

6. 'The contractor shall at least three weeks prior to the first sailing under this contract furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both north and south bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractor shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates or otherwise, directly or indirectly, against Canadian merchants or shippers who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates shall in no case be greater than the ordinary rates via any United States route or port on the Pacific; and it is further understood and agreed that the said steamers shall not carry between the terminal ports aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable satisfactory evidence of that fact being furnished to the minister, then the contractor shall be allowed to make up the balance of the cargo with deals, boards or timber.

7. 'The steamers to be employed as herein specified, shall at all times during the continuance of this contract, be fully seaworthy, well officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractor has hereby undertaken to perform; and shall have ample and suitable accommodation for the mails and freights to be carried over the routes specified; and shall, at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

8. 'The contractor shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractor, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

10. 'The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, postcards, newspapers, parcels, books or printed papers, and all other articles which under

the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used to to be used in carrying on the post office service or which shall ordinarily be sent by or to or from the post offices as qualified by clause 21 of this agreement.

20. 'It is understood and agreed that when other cargo is not available, the steamers employed in the service may call at a port or ports in Australia and at Honolulu to load and discharge cargo; provided always that such additional call or calls shall not be of such a character as to prevent the steamer taking up her sailing date at the appointed time from a terminal port; and it is further understood that any such variation from the usual direct route shall not be made in manner to compete with the subsidized service between Canada and Australia.

21. 'It is understood and agreed that in case of any loss or damage to "mails" (as defined by clause 10) being caused by negligence or want of proper care on the part of the contractor, his agents or servants, the maximum liability incurred and of penalty enforceable shall be limited to an amount not exceeding the subsidy payable in respect of the voyage on which such loss or damage occurred.

22. 'It is understood and agreed that penalties will not be enforced against the contractor; if it be shown that the delay in being ready to proceed to sea or to comply with any other terms of this contract has arisen without neglect or default of the contractor, his agents or servants, or by act of God, the King's enemies or other *force majeure*.

23. 'It is understood and agreed that in the event of one of the contractor's steamers having started on her voyage and the minister shall decide to terminate this contract for any cause or reason beyond the control of and not being the fault of the contractor, the said steamer shall be deemed to have earned the subsidy for the voyage on which she has sailed.

28. 'It is further conditioned, understood and agreed that this contract is subject to the granting by the New Zealand government of a like yearly subsidy to that hereinbefore provided, failing which this agreement is to be null and void from the time such New Zealand subsidy ceases.

29. 'This contract shall terminate on the completion of three full years' service unless sooner terminated under the provisions of sections 18, 19 or 28 hereof.'

3. 'It is understood and agreed that the number of round voyages from France to Canada and return as herein stipulated during the continuance of this contract shall not be less than eighteen yearly; that is to say, that during the months of May to November inclusive in each year there shall be run not less than two full round voyages each month and during the remaining months of December to April inclusive in each year covered by this contract, the remaining voyages shall be performed; such service to be regular and uninterrupted with sailings on such fixed dates as may be approved of by the minister, and such dates shall be by the contractors regularly advertised at least two weeks in advance of every such sailing. It is further understood and agreed that at the option of the contractors the number of round voyages from France to Canada and return as herein stipulated may be increased to a maximum of twenty-four per annum, such additional voyages if run to be run regularly with sailings on such fixed dates as may be approved by the minister, and such dates shall be by the contractors regularly advertised as hereinbefore provided.

8. 'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforesaid services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. of no effect, and the party of the first part shall not in consequence be held liable to damages.

'It is declared to be the true intent and meaning of these presents, that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

'This contract shall not, nor shall any right or interest therein be assigned without the consent in writing of the minister to such assignment having been first obtained.

'It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

'The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

EXPLANATORY NOTES

In General Statement No. 1 (Pt. ii) of Imports and Goods entered for Consumption, The term 'Entered for Consumption' is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value of goods imported is governed by Section 40 of the Customs Act, which provides that the value of imported goods subject to ad valorem duty 'shall be the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada.'

In General Statement No. 3 (Pt. ii) of Exports, The term 'The Produce of Canada' includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

'Goods not the produce of Canada' shows the exports of foreign goods which had been previously imported.

Under the Regulations commencing July 1st, 1900, all *Export* entries are delivered at the '*frontier port of exit*,' and the totals thereof are credited to the respective ports where the goods pass outwards from Canada. In view of the more complete returns obtained under this system the additions heretofore made to the export statistics (prior to July 1st, 1900) under the head of 'Short returns' are now omitted.

In this report, the tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was *entered inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The trade by Countries, with the Dominion as a whole, is recorded in the General Statements of Imports and Exports.

The value of 'Goods the Produce of Canada' is their value at the time of exportation at the ports of Canada whence shipped.

The value of 'Goods not the Produce of Canada' is the actual cost of such goods.

The initials N.E.S. mean 'not elsewhere specified.'

" N.O.P. mean 'not otherwise provided for.'

The expression 'Ton' means two thousand pounds, and 'Cwt.' one hundred pounds.

" 'Standard hundred' when applied to deals, means 2,750 feet board measure.

" 'Ton,' applied to square timber, means 40 cubic feet.

In the shipping tables the tonnage is given in net tons.

SPECIAL NOTE.

Under an amendment to the Customs Tariff passed in 1903, provision was made for the collection of a surtax on the goods of any foreign country which treats imports from Canada less favourably than those from other countries.

It is to be particularly noted that the surtax does not apply to the goods of other countries imported from Germany, but only to articles which are the growth, produce or manufacture of Germany. Various classes of goods which are of *other than German origin* therefore appear in these Tables as imports from Germany, entered under the General Tariff and not subject to a surtax.
